UNITED STATES LIME & MINERALS, INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
(Unaudited)

1. Basis of Presentation

The condensed consolidated financial statements included herein have been prepared by United States Lime & Minerals, Inc. (the “Company”) without independent audit. In the opinion of the Company’s management, all adjustments of a normal and recurring nature necessary to present fairly the financial position, results of operations, comprehensive income and cash flows for the periods presented have been made. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”) have been condensed or omitted. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the period ended December 31, 2015. The results of operations for the three-month period ended March 31, 2016 are not necessarily indicative of operating results for the full year.

2. Organization

The Company is headquartered in Dallas, Texas, and operates through two business segments. Through its Lime and Limestone Operations, the Company is a manufacturer of lime and limestone products, supplying primarily the construction (including highway, road and building contractors), environmental (including municipal sanitation and water treatment facilities and flue gas treatment processes), industrial (including paper and glass manufacturers), metals (including steel producers), roof shingle, oil and gas services and agriculture (including poultry and cattle feed producers) industries. The Company operates lime and limestone plants and distribution facilities in Arkansas, Colorado, Louisiana, Oklahoma and Texas through its wholly owned subsidiaries, Arkansas Lime Company, Colorado Lime Company, Texas Lime Company, U.S. Lime Company, U.S. Lime Company – Shreveport, U.S. Lime Company – St. Clair and U.S. Lime Company – Transportation.

The Company’s Natural Gas Interests segment is held in its wholly owned subsidiary, U.S. Lime Company – O & G, LLC (“U.S. Lime O & G”). Under a lease agreement (the “O & G Lease”), U.S. Lime O & G has royalty interests ranging from 15.4% to 20% and a 20% non-operating working interest, resulting in an overall average revenue interest of 34.7%, with respect to oil and gas rights in 33 wells drilled and currently producing on the Company’s approximately 3,800 acres of land located in Johnson County, Texas, in the Barnett Shale Formation. Through U. S. Lime O & G, the Company also has a drillsite and production facility lease agreement and subsurface easement (the “Drillsite Agreement”) relating to approximately 538 acres of land contiguous to the Company’s Johnson County, Texas property. Pursuant to the Drillsite Agreement, the Company receives a 3% royalty interest and a 12.5% non-operating working interest, resulting in a 12.4% revenue interest, in the six wells drilled and currently producing from pad sites located on the Company’s property.

3. Accounting Policies

Revenue Recognition. The Company recognizes revenue for its Lime and Limestone Operations in accordance with the terms of its purchase orders, contracts or purchase agreements, which are generally upon shipment, and when payment is considered probable. Revenues include external freight billed to customers with related costs in cost of revenues. The Company’s returns and allowances are minimal. External freight billed to customers included in first quarter 2016 and 2015 revenues was \$5.8 million and \$5.2 million, respectively, which approximates the amount of external freight included in cost of revenues. Sales taxes billed to customers are not included in revenues. For its Natural Gas Interests, the Company recognizes revenue in the month of production and delivery.

Successful-Efforts Method Used for Natural Gas Interests. The Company uses the successful-efforts method to account for oil and gas exploration and development expenditures. Under this method, drilling, completion and workover costs for successful exploratory wells and all development well costs are capitalized and depleted using the units-of-production method. Costs to drill exploratory wells that do not find proved reserves are expensed.

Comprehensive Income. Accounting principles generally require that recognized revenue, expenses, gains and losses be included in net income. Certain changes in assets and liabilities, such as mark-to-market gains or losses of interest rate hedges, are reported as a separate component of the equity section of the balance sheet. Such items, along with net income, are components of comprehensive income.

Fair Values of Financial Instruments. Fair value is defined as “the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.” The Company uses a three-tier fair value hierarchy, which classifies the inputs used in measuring fair values, in determining the fair value of its financial assets and liabilities. These tiers include: Level 1, defined as observable inputs such as quoted prices for identical instruments in active markets; Level 2, defined as observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions. There were no changes in the methods and assumptions used in measuring fair value.

New Accounting Pronouncements. In February 2016, the Financial Accounting Standards Board (the “FASB”) issued Accounting Standards Update (“ASU”) 2016-02, Leases (Topic 842) (“ASU 2016-02”), in order to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet for many leases classified as operating leases under previous accounting principles generally accepted in the United States of America. ASU 2016-02 requires that a lessee should recognize a liability to make lease payments (the lease liability) and a right-of-use asset representing its right to use the underlying asset for the lease term on the balance sheet. ASU 2016-02 is effective for fiscal years beginning after December 15, 2018 (including interim periods within those fiscal years) and early adoption is permitted. The Company is currently evaluating the impact of adoption of ASU 2016-02 on its consolidated financial statements.

In March 2016, the FASB issued ASU 2016-09, Improvements to Employee Share-Based Payment Accounting (Topic 718), (“ASU 2016-09”). ASU 2016-09 simplifies several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities and classification on the statement of cash flows. ASU 2016-09 is effective for fiscal years beginning after December 15, 2016 (including interim periods within those fiscal years) and early adoption is permitted. The Company is currently evaluating the impact of adoption of ASU 2016-09 on its consolidated financial statements.

4. Business Segments

The Company has identified two business segments based on the distinctness of their activities and products: Lime and Limestone Operations and Natural Gas Interests. All operations are in the United States. In evaluating the operating results of the Company's segments, management primarily reviews revenues and gross profit. The Company does not allocate corporate overhead or interest costs to its business segments.

The following table sets forth operating results and certain other financial data for the Company's two business segments (in thousands):

	<u>Three Months Ended March 31,</u>	
	<u>2016</u>	<u>2015</u>
Revenues		
Lime and limestone operations	\$ 33,154	\$ 29,362
Natural gas interests	432	702
Total revenues	<u>\$ 33,586</u>	<u>\$ 30,064</u>
Depreciation, depletion and amortization		
Lime and limestone operations	\$ 3,714	\$ 3,692
Natural gas interests	195	192
Total depreciation, depletion and amortization	<u>\$ 3,909</u>	<u>\$ 3,884</u>
Gross profit		
Lime and limestone operations	\$ 7,929	\$ 5,697
Natural gas interests	(81)	167
Total gross profit	<u>\$ 7,848</u>	<u>\$ 5,864</u>
Capital expenditures		
Lime and limestone operations	\$ 3,931	\$ 3,420
Natural gas interests	4	4
Total capital expenditures	<u>\$ 3,935</u>	<u>\$ 3,424</u>

5. Income Per Share of Common Stock

The following table sets forth the computation of basic and diluted income per common share (in thousands, except per share amounts):

	<u>Three Months Ended March 31,</u>	
	<u>2016</u>	<u>2015</u>
Net income for basic and diluted income per common share	\$ 4,066	\$ 2,365
Weighted-average shares for basic income per common share	5,577	5,597
Effect of dilutive securities:		
Employee and director stock options ⁽¹⁾	3	8
Adjusted weighted-average shares and assumed exercises for diluted income per common share	<u>5,580</u>	<u>5,605</u>
Basic net income per common share	<u>\$ 0.73</u>	<u>\$ 0.42</u>
Diluted net income per common share	<u>\$ 0.73</u>	<u>\$ 0.42</u>

(1) Excludes 35.0 and 17.0 stock options for the 2016 and 2015 periods, respectively, as anti-dilutive because the exercise price exceeded the average per share market price for the periods presented.

6. Accumulated Other Comprehensive Loss

The following table presents the components of comprehensive income (in thousands):

	Three Months Ended	
	March 31,	
	2016	2015
Net income	\$ 4,066	\$ 2,365
Reclassification to interest expense	—	191
Deferred income tax expense	—	(65)
Mark to market of interest rate hedges	—	(13)
Comprehensive income	<u>\$ 4,066</u>	<u>\$ 2,478</u>

Amounts reclassified to interest expense were for payments made by the Company pursuant to the Company's interest rate hedges in 2015.

7. Inventories

Inventories are valued principally at the lower of cost, determined using the average cost method, or market. Costs for raw materials and finished goods include materials, labor, and production overhead. Inventories, net consisted of the following (in thousands):

	March 31,	December 31,
	2016	2015
Lime and limestone inventories:		
Raw materials	\$ 5,815	\$ 6,627
Finished goods	1,810	2,049
	<u>\$ 7,625</u>	<u>\$ 8,676</u>
Service parts inventories	6,147	6,052
	<u>\$ 13,772</u>	<u>\$ 14,728</u>

8. Banking Facilities and Debt

On May 7, 2015, the Company amended its credit agreement with Wells Fargo Bank, N.A. (the "Lender") to, among other things, provide for a \$75 million revolving credit facility (the "New Revolving Facility") and reduce the interest rate margins and commitment fees (the "Amendment"). The Amendment also provides for an incremental four-year accordion feature to borrow up to an additional \$50 million on the same terms, subject to approval by the Lender or another lender selected by the Company. The terms of the Amendment provide for a final maturity of the New Revolving Facility and any incremental loan on May 7, 2020; interest rates, at the Company's option, of LIBOR plus a margin of 1.000% to 2.000% or the Lender's Prime Rate plus a margin of 0.000% to plus 1.000%; and a commitment fee range of 0.200% to 0.350% on the undrawn portion of the New Revolving Facility. The New Revolving Facility interest rate margins and commitment fee are determined quarterly in accordance with a pricing grid based upon the Company's Cash Flow Leverage Ratio, defined as the ratio of the Company's total funded senior indebtedness to earnings before interest, taxes, depreciation, depletion, amortization and stock-based compensation expense ("EBITDA") for the 12 months ended on the last day of the most recent calendar quarter, plus pro forma EBITDA from any businesses acquired during the period. Pursuant to a security agreement, dated August 25, 2004, the New Revolving Facility is secured by the Company's existing and hereafter acquired tangible assets, intangible assets and real property. The maturity of the New Revolving Facility and any incremental loans can be accelerated if any event of default, as defined under the credit agreement, occurs.

The Company may pay dividends so long as it remains in compliance with the provisions of the Company's credit agreement, and may purchase, redeem or otherwise acquire shares of its common stock so long as its pro forma Cash Flow Leverage Ratio is less than 3.00 to 1.00 and no default or event of default exists or would exist after giving effect to such stock repurchase.

Prior to the Amendment, the Company's credit agreement had included a ten-year \$40 million term loan (the "Term Loan"), a ten-year \$20 million multiple draw term loan (the "Draw Term Loan") and a \$30 million revolving credit facility (the "Revolving Facility") (collectively, the "Credit Facilities"). The Term Loan required quarterly principal payments of \$0.8 million, with a final principal payment of \$7.5 million due on December 31, 2015. The Draw Term Loan required quarterly principal payments of \$0.4 million, with a final principal payment of \$5.4 million due on December 31, 2015. The Revolving Facility was scheduled to mature on June 1, 2015. The maturity of the Term Loan, the Draw Term Loan and the Revolving Facility could have been accelerated if any event of default, as defined under the Credit Facilities, had occurred.

The Company had interest rate hedges, with the Lender as the counterparty to the hedges, that fixed LIBOR through maturity at 4.695%, 4.875% and 5.500% on the outstanding balance of the Term Loan, 75% of the outstanding balance of the Draw Term Loan and 25% of the outstanding balance of the Draw Term Loan, respectively. As discussed below, the Company repurchased these hedges during the second quarter 2015. Based on the LIBOR margin of 1.750% prior to the Amendment, the Company's interest rates had been: 6.445% on the outstanding balance of the Term Loan; 6.625% on 75% of the outstanding balance of the Draw Term Loan; and 7.250% on 25% of the outstanding balance of the Draw Term Loan.

The hedges had been effective as defined under applicable accounting rules. Therefore, changes in fair value of the hedges were reflected in comprehensive income. The Company would have been exposed to credit losses in the event of non-performance by the counterparty to the hedges. The Company paid \$0.2 million in quarterly settlement payments pursuant to its hedges during the first quarter 2015. These payments were included in interest expense in the Condensed Consolidated Statements of Operations.

On May 7, 2015, the Company paid off the \$15.4 million balance then outstanding on the Term Loan and Draw Term Loan, as well as paid \$0.5 million to repurchase the related hedges, from cash on hand. The cost to repurchase the hedges was included in interest expense in the second quarter 2015.

The Company had letters of credit totaling \$0.7 million issued on the New Revolving Facility at March 31, 2016, but no draws.

9. Income Taxes

The Company has estimated that its effective income tax rate for 2016 will be approximately 25.2%. As in prior periods, the primary reason for the effective rate being below the federal statutory rate is due to statutory depletion, which is allowed for income tax purposes and is a permanent difference between net income for financial reporting purposes and taxable income.

10. Dividends and Share Repurchases

On March 18, 2016, the Company paid \$0.7 million in cash dividends, based on a dividend of \$0.125 (12.5 cents) per share on its common stock, to shareholders of record at the close of business on February 26, 2016.

In December 2015, the Company commenced a publicly announced share repurchase program to purchase up to \$10 million of its common stock. Pursuant to that program, the Company repurchased 50,068 shares in the first quarter 2016 at a weighted-average price of \$53.52 per share. Since the commencement of the share repurchase program through March 31, 2016, the Company has repurchased 53,154 shares at a weighted-average price of \$53.59 per share.

11. Employee Retirement Plan

During the second quarter 2015, after receipt of a favorable determination letter from the Internal Revenue Service, the Company terminated a noncontributory defined benefit plan that, prior to the termination, covered substantially all of the union employees previously employed by its wholly owned subsidiary, Corson Lime Company

(the “Corson Plan”). In 1997, the Company sold substantially all of the assets of Corson Lime Company, and the benefits for participants in the Corson Plan were frozen. As a result of the termination of the Corson Plan, the Company made a cash payment of \$0.2 million and recognized a second quarter 2015 expense of \$0.9 million (\$0.6 million, net of tax benefit), included in Other expense (income), net, that was previously included in Accumulated other comprehensive loss.

The following table sets forth the Pre-Settlement, Settlement and Post-Settlement as of June 30, 2015 (in thousands):

	June 30, 2015		
	Pre-Settlement	Settlement	Post-Settlement
Projected benefit obligation	\$ 2,039	\$ (2,039)	\$ —
Fair value of plan assets	2,039	(2,039)	—
Underfunded status	<u>\$ —</u>	<u>\$ —</u>	<u>\$ —</u>

12. Subsequent Events

On April 27, 2016, the Company’s Board of Directors declared a regular quarterly cash dividend of \$0.125 (12.5 cents) per share on the Company’s common stock. This dividend is payable on June 17, 2016 to shareholders of record at the close of business on May 27, 2016.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements. Any statements contained in this Report that are not statements of historical fact are forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements in this Report, including without limitation statements relating to the Company's plans, strategies, objectives, expectations, intentions, and adequacy of resources, are identified by such words as "will," "could," "should," "would," "believe," "possible," "potential," "expect," "intend," "plan," "schedule," "estimate," "anticipate," and "project." The Company undertakes no obligation to publicly update or revise any forward-looking statements. The Company cautions that forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from expectations, including without limitation the following: (i) the Company's plans, strategies, objectives, expectations, and intentions are subject to change at any time at the Company's discretion; (ii) the Company's plans and results of operations will be affected by its ability to maintain and increase its revenues and manage its growth; (iii) the Company's ability to meet short-term and long-term liquidity demands, including meeting the Company's operating and capital needs, including for possible modernization and expansion and development projects and acquisitions, repurchasing the Company's common stock and paying dividends, conditions in the credit and equity markets, including the ability of the Company's customers to meet their obligations; (iv) interruptions to operations and increased expenses at the Company's facilities resulting from changes in mining methods or conditions, variability of chemical or physical properties of the Company's limestone and its impact on process equipment and product quality, inclement weather conditions, natural disasters, accidents, IT systems failures or disruptions, including due to cybersecurity incidents, or regulatory requirements; (v) volatile coal, petroleum coke, diesel, natural gas, electricity, transportation and freight costs and the consistent availability of trucks and rail cars to deliver the Company's products to its customers and solid fuels to its plants on a timely basis; (vi) unanticipated delays, technical feasibility issues or cost overruns in completing modernization and expansion and development projects; (vii) the Company's ability to expand its Lime and Limestone Operations through acquisitions of businesses with related or similar operations, including obtaining financing for such acquisitions, and to successfully integrate acquired operations and sell any resulting increased production at acceptable prices; (viii) inadequate demand and/or prices for the Company's lime and limestone products due to conditions in the U.S. economy, recessionary pressures in particular industries, including construction, steel, industrial and oil and gas services, reduced demand from utility plants, increased competition from competitors, effects of governmental fiscal and budgetary constraints, including the level of highway construction funding, and legislative impasses, and inability to continue to increase or maintain prices for the Company's products; (ix) uncertainties of prices and regulations with respect to the Company's Natural Gas Interests, including the absence of drilling activities on the Company's O & G Properties, inability to explore for new reserves, unitization of existing wells, declines in production rates and plugging and abandoning of existing wells; (x) ongoing and possible new regulations, investigations, enforcement actions and costs, legal expenses, penalties, fines, assessments, litigation, judgments and settlements, taxes and disruptions and limitations of operations, including those related to climate change and health and safety and those that could impact the Company's ability to continue or renew its operating permits or successfully secure new permits in connection with its modernization and expansion and development projects; and (xi) other risks and uncertainties set forth in this Report or indicated from time to time in the Company's filings with the SEC including the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2015.

Overview.

The Company has two operating segments: Lime and Limestone Operations and Natural Gas Interests. Revenues and gross profit are the primary items utilized to evaluate the operating results of the Company's segments and to allocate resources.

Through its Lime and Limestone Operations, the Company is a manufacturer of lime and limestone products, supplying primarily the construction (including highway, road and building contractors), environmental (including municipal sanitation and water treatment facilities and flue gas treatment processes), industrial (including paper and glass manufacturers), metals (including steel producers), roof shingle, oil and gas services and agriculture (including poultry and cattle feed producers) industries. The Company is headquartered in Dallas, Texas and operates lime and limestone plants and distribution facilities in Arkansas, Colorado, Louisiana, Oklahoma and Texas through its wholly owned subsidiaries, Arkansas Lime Company, Colorado Lime Company, Texas Lime Company, U.S. Lime Company, U.S.

Lime Company – Shreveport, U.S. Lime Company – St. Clair and U.S. Lime Company – Transportation. The Lime and Limestone Operations represent the Company’s principal business.

The Company’s Natural Gas Interests are held in its wholly owned subsidiary, U.S. Lime Company – O & G, LLC, and consist of royalty and non-operating working interests under the O & G Lease with EOG Resources, Inc. and the Drillsite Agreement with XTO Energy, Inc. related to the Company’s Johnson County, Texas property, located in the Barnett Shale Formation, on which Texas Lime Company conducts its lime and limestone operations.

Revenues from the Company’s Lime and Limestone Operations increased 12.9% in the first quarter 2016, compared to the first quarter 2015, because of increased sales volumes of approximately 11.9% for the Company’s lime and limestone products as a result of increased demand, principally from its construction and industrial customers, partially offset by reduced demand from the Company’s environmental customers, and average product price increases of approximately 1.0% realized for the Company’s lime and limestone products in the first quarter 2016, compared to the comparable 2015 quarter. The increased demand year-over-year from construction customers was due in part to the fact that construction demand was negatively impacted in the first quarter 2015 by inclement weather conditions in the period. The Company’s gross profit from its Lime and Limestone Operations increased 39.2% in the first quarter 2016, compared to the first quarter 2015, primarily because of the increase in revenues in the first quarter 2016, compared to the comparable 2015 quarter.

Revenues from the Company’s Natural Gas Interests decreased 38.5% in the first quarter 2016, compared to the first quarter 2015, due to decreased prices for natural gas and natural gas liquids (approximately 28.2% for the 2016 quarter, compared to the comparable 2015 quarter) and decreased production volumes (approximately 10.3%) resulting from the normal declines in production rates on the Company’s 39 existing natural gas wells. The Company’s gross profit from its Natural Gas Interests decreased in the first quarter 2016 to a loss of \$0.1 million, compared to a profit of \$0.2 million in the comparable 2015 quarter, primarily due to the decrease in revenues discussed above and an increase in the rate at which non-cash depletion expense was recorded in the 2016 quarter.

In December 2015, the Company commenced a publicly announced share repurchase program to purchase up to \$10 million of its common stock. Pursuant to that program, the Company repurchased 50,068 shares in the first quarter 2016 at a weighted-average price of \$53.52 per share. Since the commencement of the share repurchase program through the date of this Report, the Company has repurchased 53,154 shares at a weighted-average price of \$53.59 per share.

The Company paid its regular quarterly cash dividend of \$0.125 (12.5 cents) per share on its common stock in each of the first quarter 2016 and 2015. On April 27, 2016, the Company’s Board of Directors declared a regular quarterly cash dividend of \$0.125 (12.5 cents) per share on the Company’s common stock. This dividend is payable on June 17, 2016 to shareholders of record at the close of business on May 27, 2016.

Liquidity and Capital Resources.

Net cash provided by operating activities was \$7.9 million in the first quarter 2016, compared to \$7.5 million in the comparable 2015 period, an increase of \$0.4 million, or 4.8%. Net cash provided by operating activities is composed of net income, depreciation, depletion and amortization (“DD&A”), deferred income taxes and other non-cash items included in net income, and changes in working capital. In the first quarter 2016, cash provided by operating activities was principally composed of \$4.1 million net income and \$4.0 million DD&A, compared to \$2.4 million net income and \$4.0 million DD&A in the first quarter 2015. The most significant changes in working capital items in the first quarter 2016 were a decrease in inventories, net of \$1.0 million, an increase in trade receivables, net of \$0.9 million, and a decrease in accounts payable and accrued expenses of \$0.8 million. The most significant changes in working capital items in the first quarter 2015 were a decrease in trade receivables, net of \$1.4 million, a decrease in accounts payable and accrued expenses of \$1.0 million and an increase in prepaid expenses and other current assets of \$0.8 million. The increase in trade receivables, net in the 2016 quarter primarily resulted from increased revenues in the first quarter 2016, compared to the fourth quarter 2015, while the decrease in trade receivables, net in the 2015 quarter resulted from decreased revenues in the first quarter 2015, compared to the fourth quarter 2014.

The Company had \$3.9 million in capital expenditures in the first quarter 2016, compared to \$3.4 million in the comparable quarter last year.

Net cash used in financing activities was \$3.3 million and \$2.0 million in the 2016 and 2015 first quarters, respectively, consisting primarily of purchase of treasury shares of \$2.7 million and \$0.1 million in the first quarters 2016 and 2015, respectively, and repayment of \$1.25 million of term loan debt in the first quarter 2015. Additionally, the Company paid \$0.7 million in dividends during the first quarters of each of 2016 and 2015. Cash and cash equivalents increased \$0.7 million to \$60.6 million at March 31, 2016 from \$59.9 million at December 31, 2015.

On May 7, 2015, the Company amended its credit agreement with Wells Fargo Bank, N.A. (the “Lender”) to, among other things, provide for a \$75 million revolving credit facility (the “New Revolving Facility”) and reduce the interest rate margins and commitment fees (the “Amendment”). The Amendment also provides for an incremental four-year accordion feature to borrow up to an additional \$50 million on the same terms, subject to approval by the Lender or another lender selected by the Company. The terms of the Amendment provide for a final maturity of the New Revolving Facility and any incremental loan on May 7, 2020; interest rates, at the Company’s option, of LIBOR plus a margin of 1.000% to 2.000% or the Lender’s Prime Rate plus a margin of 0.000% to plus 1.000%; and a commitment fee range of 0.200% to 0.350% on the undrawn portion of the New Revolving Facility. The New Revolving Facility interest rate margins and commitment fee are determined quarterly in accordance with a pricing grid based upon the Company’s Cash Flow Leverage Ratio, defined as the ratio of the Company’s total funded senior indebtedness to earnings before interest, taxes, depreciation, depletion, amortization and stock-based compensation expense (“EBITDA”) for the 12 months ended on the last day of the most recent calendar quarter, plus pro forma EBITDA from any businesses acquired during the period. Pursuant to a security agreement, dated August 25, 2004, the New Revolving Facility is secured by the Company’s existing and hereafter acquired tangible assets, intangible assets and real property. The maturity of the New Revolving Facility and any incremental loans can be accelerated if any event of default, as defined under the credit agreement, occurs.

The Company may pay dividends so long as it remains in compliance with the provisions of the Company’s credit agreement, and may purchase, redeem or otherwise acquire shares of its common stock so long as its pro forma Cash Flow Leverage Ratio is less than 3.00 to 1.00 and no default or event of default exists or would exist after giving effect to such stock repurchase.

Prior to the Amendment, the Company’s credit agreement had included a ten-year \$40 million term loan (the “Term Loan”), a ten-year \$20 million multiple draw term loan (the “Draw Term Loan”) and a \$30 million revolving credit facility (the “Revolving Facility”) (collectively, the “Credit Facilities”). The Term Loan required quarterly principal payments of \$0.8 million, with a final principal payment of \$7.5 million due on December 31, 2015. The Draw Term Loan required quarterly principal payments of \$0.4 million, with a final principal payment of \$5.4 million due on December 31, 2015. The Revolving Facility was scheduled to mature on June 1, 2015. The maturity of the Term Loan, the Draw Term Loan and the Revolving Facility could have been accelerated if any event of default, as defined under the Credit Facilities, had occurred.

The Company had interest rate hedges, with the Lender as the counterparty to the hedges, that fixed LIBOR through maturity at 4.695%, 4.875% and 5.500% on the outstanding balance of the Term Loan, 75% of the outstanding balance of the Draw Term Loan and 25% of the outstanding balance of the Draw Term Loan, respectively. As discussed below, the Company repurchased these hedges during the second quarter 2015. Based on the LIBOR margin of 1.750% prior to the Amendment, the Company’s interest rates had been: 6.445% on the outstanding balance of the Term Loan; 6.625% on 75% of the outstanding balance of the Draw Term Loan; and 7.250% on 25% of the outstanding balance of the Draw Term Loan.

The hedges had been effective as defined under applicable accounting rules. Therefore, changes in fair value of the hedges were reflected in comprehensive income. The Company would have been exposed to credit losses in the event of non-performance by the counterparty to the hedges. The Company paid \$0.2 million in quarterly settlement payments pursuant to its hedges during the first quarter 2015. These payments were included in interest expense in the Condensed Consolidated Statements of Operations.

On May 7, 2015, the Company paid off the \$15.4 million balance then outstanding on the Term Loan and Draw Term Loan, as well as paid \$0.5 million to repurchase the related hedges, from cash on hand. The cost to repurchase the hedges was included in interest expense in the second quarter 2015.

The Company is not contractually committed to any planned capital expenditures for its Lime and Limestone Operations until actual orders are placed for equipment. As of March 31, 2016, the Company had no material open orders or commitments that are not included in current liabilities on the March 31, 2016 Condensed Consolidated Balance Sheet.

As of March 31, 2016, the Company had no debt outstanding and no draws on the New Revolving Facility other than \$0.7 million of letters of credit. The Company believes that cash on hand and cash flows from operations will be sufficient to meet the Company's operating needs, ongoing capital needs, including possible modernization and expansion and development projects, and other liquidity needs and allow it to continue to repurchase its common stock under its publicly announced share repurchase program as well as pay cash dividends for the near future.

Results of Operations.

Revenues in the first quarter 2016 were \$33.6 million, compared to \$30.1 million in the the first quarter 2015, an increase of \$3.5 million, or 11.7%. Revenues from the Company's Lime and Limestone Operations in the first quarter 2016 increased \$3.8 million, or 12.9%, to \$33.2 million from \$29.4 million in the comparable 2015 quarter, while revenues from its Natural Gas Interests decreased \$0.3 million, or 38.5%, to \$0.4 million from \$0.7 million in the comparable prior year quarter.

As discussed above, the increases in Lime and Limestone Operations revenues in the first quarter 2016, compared to last year's comparable quarter, resulted primarily from increased sales volumes of the Company's lime and limestone products and slight increases in prices realized for the Company's lime and limestone products. Production volumes from the Company's Natural Gas Interests in the first quarter 2016 totaled 160 thousand MCF, sold at an average price of \$2.69 per MCF, compared to 187 thousand MCF, sold at an average price of \$3.75 per MCF, in the comparable 2015 quarter. The Company's 2016 average prices per MCF were lower than the prior year's average prices due to decreases in natural gas and natural gas liquids prices.

The Company's gross profit was \$7.8 million in the first quarter 2016, compared to \$5.9 million in the comparable 2015 quarter, an increase of \$2.0 million, or 33.8%. Included in gross profit in the first quarter 2016 was \$7.9 million from the Company's Lime and Limestone Operations, compared to \$5.7 million in the comparable 2015 quarter. The increase in gross profit from the Company's Lime and Limestone Operations in the first quarter 2016, compared to the first quarter 2015, resulted primarily from the increase in revenues discussed above. Gross profit from the Company's Natural Gas Interests decreased to a loss of \$0.1 million in the first quarter 2016, from \$0.2 million profit in the comparable 2015 quarter.

Selling, general and administrative expenses ("SG&A") were \$2.4 million in each of the first quarters of 2016 and 2015. As a percentage of revenues, SG&A decreased to 7.2% in the 2016 quarter, compared to 8.0% in the comparable 2015 quarter due to the increase in revenues in the 2016 quarter.

Interest expense in the first quarter 2016 decreased \$0.3 million, or 81.7%, to \$59 thousand from \$0.3 million in the first quarter 2015, primarily as a result of the repayment of debt in the second quarter 2015. Interest expense included quarterly settlement payments on the hedges of \$0.2 million in the first quarter 2015.

Income tax expense increased to \$1.4 million in the first quarter 2016 from \$0.8 million in the first quarter 2015, an increase of \$0.6 million, or 74.0%. The increase in income tax expense in the first quarter 2016 was principally due to the increase in the Company's income before income taxes, compared to the first quarter 2015.

The Company's net income was \$4.1 million (\$0.73 per share diluted) in the first quarter 2016, compared to net income of \$2.4 million (\$0.42 per share diluted) in the first quarter 2015, an increase of \$1.7 million, or 71.9%.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk.

The Company would be exposed to changes in interest rates, primarily as a result of floating interest rates on the New Revolving Facility. There was no outstanding balance on the New Revolving Facility subject to interest rate risk at March 31, 2016. Any future borrowings under the New Revolving Facility would be subject to interest rate risk. See Note 8 of Notes to Condensed Consolidated Financial Statements.

ITEM 4: CONTROLS AND PROCEDURES

The Company's management, with the participation of the Company's Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), evaluated the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this Report. Based upon that evaluation, the CEO and CFO concluded that the Company's disclosure controls and procedures as of the end of the period covered by this Report were effective.

No change in the Company's internal control over financial reporting occurred during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 2: UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

In December 2015, the Company commenced a publicly announced share repurchase program to repurchase up to \$10 million of its common stock. The following table sets forth, for the periods indicated, the Company's share repurchase activity under the program:

<u>Period</u>	<u>Total Number of Shares Purchased</u>	<u>Average Price Paid Per Share</u>	<u>Total Number of Shares Purchased as Part of Publicly Announced Program</u>	<u>Maximum Remaining Amount Available Under the Program</u>
January 1 – 31, 2016	25,109	\$ 54.91	25,109	\$ 8,452,100
February 1 – 29, 2016	24,959	52.12	24,959	7,151,226
March 1 – 31, 2016	—	—	—	7,151,226
Total	50,068	\$ 53.52	50,068	\$ 7,151,226

In addition, the Company's Amended and Restated 2001 Long-Term Incentive Plan allows employees and directors to pay the exercise price for stock options and the tax withholding liability upon the lapse of restrictions on restricted stock by payment in cash and/or delivery of shares of the Company's common stock. In the first quarter 2016, pursuant to these provisions, the Company repurchased 994 shares at prices of \$53.75 to \$54.98 per share (weighted average of \$54.02 per share), the fair market value of one share of the Company's common stock on the dates that they were tendered to the Company for payment of tax withholding liability upon the lapse of restrictions on restricted stock.

ITEM 4: MINE SAFETY DISCLOSURES

Under Section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 104 of SEC Regulation S-K, each operator of a coal or other mine is required to include disclosures regarding certain mine safety results in its periodic reports filed with the SEC. The operation of the Company's quarries, underground mine and plants is subject to regulation by the federal Mine Safety and Health Administration ("MSHA") under the Federal Mine Safety and Health Act of 1977. The required information regarding certain mining safety and health matters, broken down by mining complex, for the quarter ended March 31, 2016 is presented in Exhibit 95.1 to this Report.

The Company believes it is responsible to employees to provide a safe and healthy workplace environment. The Company seeks to accomplish this by: training employees in safe work practices; openly communicating with employees; following safety standards and establishing and improving safe work practices; involving employees in safety processes; and recording, reporting and investigating accidents, incidents and losses to avoid reoccurrence.

Following passage of the Mine Improvement and New Emergency Response Act of 2006, MSHA significantly increased the enforcement of mining safety and health standards on all aspects of mining operations. There has also been an increase in the dollar penalties assessed for citations and orders issued in recent years.

RULE 13a-14(a)/15d-14(a) CERTIFICATION BY THE CHIEF EXECUTIVE OFFICER

I, Timothy W. Byrne, certify that:

1. I have reviewed this quarterly report on Form 10-Q of United States Lime & Minerals, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize, and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

MINE SAFETY DISCLOSURES

The following disclosures are provided pursuant to Section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 104 of SEC Regulation S-K, which require certain disclosures by companies required to file periodic reports under the Securities Exchange Act of 1934, as amended, that operate mines regulated under the Federal Mine Safety and Health Act of 1977 (the “Mine Act”).

The Mine Act has been construed as authorizing MSHA to issue citations and orders pursuant to the legal doctrine of strict liability, or liability without fault. If, in the opinion of an MSHA inspector, a condition that violates the Mine Act or regulations promulgated pursuant to it exists, then a citation or order will be issued regardless of whether the operator had any knowledge of, or fault in, the existence of that condition. Many of the Mine Act standards include one or more subjective elements, so that issuance of a citation or order often depends on the opinions or experience of the MSHA inspector involved and the frequency and severity of citations and orders will vary from inspector to inspector.

Whenever MSHA believes that a violation of the Mine Act, any health or safety standard, or any regulation has occurred, it may issue a citation or order which describes the violation and fixes a time within which the operator must abate the violation. In some situations, such as when MSHA believes that conditions pose a hazard to miners, MSHA may issue an order requiring cessation of operations, or removal of miners from the area of the mine, affected by the condition until the hazards are corrected. Whenever MSHA issues a citation or order, it has authority to propose a civil penalty or fine, as a result of the violation, that the operator is ordered to pay.

The table that follows reflects citations, orders, violations and proposed assessments issued to the Company by MSHA during the quarter ended March 31, 2016 and all pending legal actions as of March 31, 2016. Due to timing and other factors, the data may not agree with the mine data retrieval system maintained by MSHA. The proposed assessments for the quarter ended March 31, 2016 were taken from the MSHA system as of May 2, 2016.

Additional information follows about MSHA references used in the table:

- *Section 104(a) Citations:* The total number of citations received from MSHA under section 104(a) of the Mine Act for alleged violations of health or safety standards that could significantly and substantially contribute to a serious injury if left unabated.
- *Section 104(b) Orders:* The total number of orders issued by MSHA under section 104(b) of the Mine Act, which represents a failure to abate a citation under section 104(a) within the period of time prescribed by MSHA. This results in an order of immediate withdrawal from the area of the mine affected by the condition until MSHA determines that the violation has been abated.
- *Section 104(d) Citations and Orders:* The total number of citations and orders issued by MSHA under section 104(d) of the Mine Act for unwarrantable failure to comply with mandatory health or safety standards.
- *Section 110(b)(2) Violations:* The total number of flagrant violations issued by MSHA under section 110(b)(2) of the Mine Act.
- *Section 107(a) Orders:* The total number of orders issued by MSHA under section 107(a) of the Mine Act for situations in which MSHA determined an imminent danger existed.

Citations and orders can be contested before the Federal Mine Safety and Health Review Commission (the “Commission”), and as part of that process, are often reduced in severity and amount, and are sometimes dismissed. The Commission is an independent adjudicative agency that provides administrative trial and appellate review of legal disputes arising under the Mine Act. These cases may involve, among other questions, challenges by operators to citations, orders and penalties they have received from MSHA, or complaints of discrimination by miners under section 105 of the Mine Act.

Mine(1)	Section 104 S & S Citations	Section 104(b) Orders	Section 104(d) Citations and Orders	Section 110(b)(2) Violations	Section 107(a) Orders	Proposed MSHA Assessments(2) (\$ in thousands)	Fatalities	Pending Legal Actions(3)
Texas Lime Company	—	—	—	—	—	0.1	—	—
Arkansas Lime Company								
Plant	1	—	—	—	—	—	—	1
Limedale Quarry	—	—	—	—	—	0.1	—	1
Colorado Lime Company								
Monarch Quarry	—	—	—	—	—	—	—	—
Salida Plant	1	—	—	—	—	0.2	—	—
Delta Plant	—	—	—	—	—	—	—	—
U.S. Lime Company—St. Clair	—	—	—	—	—	0.6	—	—

- (1) The definition of a mine under section 3 of the Mine Act includes the mine, as well as other items used in, or to be used in, or resulting from, the work of extracting and processing limestone, such as roads, land, structures, facilities, equipment, machines, tools, kilns, and other property. These other items associated with a single mine have been aggregated in the totals for that mine.
- (2) The proposed MSHA assessments issued during the reporting period do not necessarily relate to the citations or orders issued by MSHA during the reporting period or to the pending contests reported above.
- (3) Includes any pending legal actions before the Commission involving such mine as of March 31, 2016. All pending legal actions were initiated by the Company. The pending legal actions may relate to the citations or orders issued by MSHA during the reporting period or to citations or orders issued in prior periods. Due to timing and other factors, the data may not agree with the mine data retrieval system maintained by MSHA. There was one legal action instituted or none resolved during the reporting period.

Pattern or Potential Pattern of Violations. During the quarter ended March 31, 2016, none of the mines operated by the Company received written notice from MSHA of either (a) a pattern of violations of mandatory health or safety standards that are of such nature as could have significantly and substantially contributed to mine health or safety hazards under section 104(e) of the Mine Act or (b) the potential to have such a pattern.
