Commission file number is 000-4197

UNITED STATES LIME & MINERALS, INC.

(Exact name of registrant as specified in its charter)

TEXAS

(State or other jurisdiction of
incorporation or organization)

75-0789226

(I.R.S. Employer
Identification No.)

5429 LBJ Freeway, Suite 230, Dallas, TX

(Address of principal executive offices)

75240

(Zip Code)

(972) 991-8400

(Registrant's telephone number, including area code)

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the Registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required to submit and post such files). Yes No

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a smaller reporting company)

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the Registrant's classes of common stock, as of the latest practicable date: As of April 27, 2017, 5,578,539 shares of common stock, \$0.10 par value, were outstanding.

UNITED STATES LIME & MINERALS, INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
(Unaudited)

1. Basis of Presentation

The condensed consolidated financial statements included herein have been prepared by United States Lime & Minerals, Inc. (the “Company”) without independent audit. In the opinion of the Company’s management, all adjustments of a normal and recurring nature necessary to present fairly the financial position, results of operations, comprehensive income and cash flows for the periods presented have been made. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”) have been condensed or omitted. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the period ended December 31, 2016. The results of operations for the three-month period ended March 31, 2017 are not necessarily indicative of operating results for the full year.

2. Organization

The Company is headquartered in Dallas, Texas, and operates through two business segments. Through its Lime and Limestone Operations, the Company is a manufacturer of lime and limestone products, supplying primarily the construction (including highway, road and building contractors), environmental (including municipal sanitation and water treatment facilities and flue gas treatment processes), industrial (including paper and glass manufacturers), metals (including steel producers), roof shingle, oil and gas services and agriculture (including poultry and cattle feed producers) industries. The Company operates lime and limestone plants and distribution facilities in Arkansas, Colorado, Louisiana, Oklahoma and Texas through its wholly owned subsidiaries, Arkansas Lime Company, Colorado Lime Company, Texas Lime Company, U.S. Lime Company, U.S. Lime Company – Shreveport, U.S. Lime Company – St. Clair and U.S. Lime Company – Transportation.

The Company’s Natural Gas Interests segment is held in its wholly owned subsidiary, U.S. Lime Company – O & G, LLC (“U.S. Lime O & G”). Under a lease agreement (the “O & G Lease”), U.S. Lime O & G has royalty interests ranging from 15.4% to 20% and a 20% non-operating working interest, resulting in an overall average revenue interest of 34.7%, with respect to oil and gas rights in 33 wells drilled and currently producing on the Company’s approximately 3,800 acres of land located in Johnson County, Texas, in the Barnett Shale Formation. Through U. S. Lime O & G, the Company also has a drillsite and production facility lease agreement and subsurface easement (the “Drillsite Agreement”) relating to approximately 538 acres of land contiguous to the Company’s Johnson County, Texas property. Pursuant to the Drillsite Agreement, the Company receives a 3% royalty interest and a 12.5% non-operating working interest, resulting in a 12.4% revenue interest, in the six wells drilled and currently producing from pad sites located on the Company’s property.

3. Accounting Policies

Revenue Recognition. The Company recognizes revenue for its Lime and Limestone Operations in accordance with the terms of its purchase orders, contracts or purchase agreements, which are generally upon shipment, and when payment is considered probable. Revenues include external freight billed to customers with related costs in cost of revenues. The Company’s returns and allowances are minimal. External freight billed to customers in first quarter 2017 and 2016 revenues was \$6.1 million and \$5.1 million, respectively, which approximates the amount of external freight included in cost of revenues. Sales taxes billed to customers are not included in revenues. For its Natural Gas Interests, the Company recognizes revenue in the month of production and delivery.

Successful-Efforts Method Used for Natural Gas Interests. The Company uses the successful-efforts method to account for oil and gas exploration and development expenditures. Under this method, drilling, completion and workover costs for successful exploratory wells and all development well costs are capitalized and depleted using the units-of-production method. Costs to drill exploratory wells that do not find proved reserves are expensed.

Comprehensive Income. Accounting principles generally require that recognized revenue, expenses, gains and losses be included in net income. Certain changes in assets and liabilities, such as mark-to-market gains or losses on interest rate and foreign exchange hedges, are reported as a separate component of the equity section of the balance sheet. Such items, along with net income, are components of comprehensive income.

Fair Values of Financial Instruments. Fair value is defined as “the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.” The Company uses a three-tier fair value hierarchy, which classifies the inputs used in measuring fair values, in determining the fair value of its financial assets and liabilities. These tiers include: Level 1, defined as observable inputs such as quoted prices for identical instruments in active markets; Level 2, defined as observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions. Specific inputs used to value the Company’s foreign exchange hedges were Euro to U.S. Dollar exchange rates for the expected future payment dates for the Company’s commitments denominated in Euros. See Note 6. There were no changes in the methods and assumptions used in measuring fair value.

The Company’s financial liabilities measured at fair value on a recurring basis at March 31, 2017 and December 31, 2016 are summarized below (in thousands):

			Significant Other Observable Inputs (Level 2)		Valuation Technique
	March 31, 2017	December 31, 2016	March 31, 2017	December 31, 2016	
Foreign exchange hedges	\$ (303)	\$ (352)	\$ (303)	\$ (352)	Cash flows approach

New Accounting Pronouncements. In May 2014, the Financial Accounting Standards Board (the “FASB”) issued Accounting Standards Update No. 2014-09 (“ASU 2014-09”), “Revenue from Contracts with Customers,” which stipulates that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve this core principle, an entity should apply the following steps: (1) identify the contract(s) with a customer; (2) identify the performance obligations in the contract(s); (3) determine the transaction price; (4) allocate the transaction price to the performance obligations in the contract(s); and (5) recognize revenue when (or as) the entity satisfies a performance obligation. The new guidance will be effective for the Company beginning January 1, 2018, with early adoption permitted for annual periods beginning after December 15, 2016. Almost all of the Company’s purchase orders, contracts or purchase agreements do not contain performance obligations other than delivery of the agreed upon product, which is primarily FOB shipping point. Thus, the Company generally recognizes revenue upon shipment of the product. While the Company is still in the process of completing an analysis of all of its revenue generating activities and the contracts which might impact its revenue generating activities in light of the new standard, the Company does not believe that any of its revenue streams will be materially affected by the adoption of ASU 2014-09, and therefore it does not expect its Consolidated Statements of Operations will be materially affected. The Company plans to adopt ASU 2014-09 beginning January 1, 2018 using the modified retrospective approach and recognize a cumulative effect of the change, if any, to opening retained earnings in the year of adoption.

In February 2016, the FASB issued Accounting Standards Update No. 2016-02 (“ASU 2016-02”), “Leases,” which requires the recognition of lease assets and lease liabilities by lessees for all leases greater than one year in duration and classified as operating leases under previous guidance. ASU 2016-02 is effective for fiscal years beginning after December 15, 2018 and interim periods within those periods, with early adoption permitted. ASU 2016-02 must be adopted using a modified retrospective transition and requires application of the new guidance at the beginning of the earliest comparative period presented. As of December 31, 2016, the Company’s undiscounted minimum contractual commitments under long-term leases, which were not recorded on the Company’s December 31, 2016 Consolidated Balance Sheet, was \$6.8 million, which is an estimate of the effect on total assets and total liabilities that the new accounting standard would have on that date. The Company is currently evaluating the effect that this standard will have on the Company’s Consolidated Financial Statements.

In March 2016, the FASB issued Accounting Standards Update No. 2016-09 (“ASU 2016-09”), “Compensation–Stock Compensation,” which requires that excess tax benefits (which represent the excess of actual tax benefits received at the date of vesting or settlement over the vesting period or upon issuance of share-based payments) and tax deficiencies (which represents the amount by which actual tax benefits received at the date of vesting or settlement is lower than the benefits recognized over the vesting period or upon issuance of share-based payments) be recorded in the income statement as a reduction or increase of income taxes when an award vests. It also requires excess tax benefits to be classified as an operating activity in the statement of cash flows rather than a financing activity. In addition, it simplifies other aspects of share-based payment transactions, including classification of awards that permit repurchase to satisfy statutory tax withholding requirements and classification of tax payments on behalf of employees on the statement of cash flows. The Company adopted this guidance in the first quarter 2017, and it did not have a material effect on the Company’s Condensed Consolidated Financial Statements.

4. Business Segments

The Company has identified two business segments based on the distinctness of their activities and products: Lime and Limestone Operations and Natural Gas Interests. All operations are in the United States. In evaluating the operating results of the Company’s segments, management primarily reviews revenues and gross profit. The Company does not allocate corporate overhead or interest costs to its business segments.

The following table sets forth operating results and certain other financial data for the Company’s two business segments (in thousands):

	Three Months Ended March 31,	
	2017	2016
Revenues		
Lime and limestone operations	\$ 35,517	\$ 33,154
Natural gas interests	636	432
Total revenues	<u>\$ 36,153</u>	<u>\$ 33,586</u>
Depreciation, depletion and amortization		
Lime and limestone operations	\$ 4,031	\$ 3,714
Natural gas interests	205	195
Total depreciation, depletion and amortization	<u>\$ 4,236</u>	<u>\$ 3,909</u>
Gross profit (loss)		
Lime and limestone operations	\$ 8,020	\$ 7,929
Natural gas interests	218	(81)
Total gross profit	<u>\$ 8,238</u>	<u>\$ 7,848</u>
Capital expenditures		
Lime and limestone operations	\$ 4,206	\$ 3,931
Natural gas interests	2	4
Total capital expenditures	<u>\$ 4,208</u>	<u>\$ 3,935</u>

5. Income Per Share of Common Stock

The following table sets forth the computation of basic and diluted income per common share (in thousands, except per share amounts):

	Three Months Ended March	
	31,	
	2017	2016
Net income for basic and diluted income per common share	\$ 4,620	\$ 4,066
Weighted-average shares for basic income per common share	5,576	5,577
Effect of dilutive securities:		
Employee and director stock options ⁽¹⁾	9	3
Adjusted weighted-average shares and assumed exercises for diluted income per common share	5,585	5,580
Basic net income per common share	\$ 0.83	\$ 0.73
Diluted net income per common share	\$ 0.83	\$ 0.73

(1) Excludes 35 stock options for the 2016 period as anti-dilutive because the exercise price exceeded the average per share market price for the period.

6. Accumulated Other Comprehensive Loss

The following table presents the components of comprehensive income (in thousands):

	Three Months Ended	
	March 31,	
	2017	2016
Net income	\$ 4,620	\$ 4,066
Mark to market of foreign exchange hedges	49	—
Deferred income tax expense	(18)	—
Comprehensive income	<u>\$ 4,651</u>	<u>\$ 4,066</u>

In November 2016, to hedge against potential losses due to changes in the Euro to U.S. Dollar exchange rates, the Company entered into foreign exchange (“FX”) hedges with Wells Fargo Bank, N.A. as the counterparty to the hedges to fix the exchange rate for approximately 5.5 million Euros in connection with a contractual obligation related to the St. Clair kiln project. The Company will be exposed to credit losses in the event of non-performance by the counterparty to the FX hedges. The FX hedges have been effective as defined under applicable accounting rules. Therefore, changes in fair value of the FX hedges are reflected in comprehensive income. Due to the strengthening of the U.S. Dollar, compared to the Euro, in the period since the Company entered into the FX hedges, the fair value of the FX hedges resulted in a liability of \$303 thousand and \$352 thousand at March 31, 2017 and December 31, 2016, respectively, which is included in accrued expenses (\$265 thousand and \$309 thousand, at March 31, 2017 and December 31, 2016, respectively) and other liabilities (\$38 thousand and \$43 thousand, at March 31, 2017 and December 31, 2016, respectively).

7. Inventories, Net

Inventories are valued principally at the lower of cost, determined using the average cost method, or market. Costs for raw materials and finished goods include materials, labor, and production overhead. Inventories, net consisted of the following (in thousands):

	March 31, 2017	December 31, 2016
Lime and limestone inventories:		
Raw materials	\$ 4,169	\$ 4,811
Finished goods	1,905	2,070
	<u>\$ 6,074</u>	<u>\$ 6,881</u>
Service parts inventories	5,743	5,552
	<u>\$ 11,817</u>	<u>\$ 12,433</u>

8. Banking Facilities and Debt

The Company’s credit agreement with Wells Fargo Bank, N.A. (the “Lender”) provides for a \$75 million revolving credit facility (the “Revolving Facility”) and an incremental four-year accordion feature to borrow up to an additional \$50 million on the same terms, subject to approval by the Lender or another lender selected by the Company. The Revolving Facility and any incremental loan mature on May 7, 2020. Interest rates are, at the Company’s option, LIBOR plus a margin of 1.000% to 2.000%, or the Lender’s Prime Rate plus a margin of 0.000% to plus 1.000%; and a commitment fee range of 0.200% to 0.350% on the undrawn portion of the Revolving Facility. The Revolving Facility interest rate margins and commitment fee are determined quarterly in accordance with a pricing grid based upon the Company’s Cash Flow Leverage Ratio, defined as the ratio of the Company’s total funded senior indebtedness to earnings before interest, taxes, depreciation, depletion, amortization and stock-based compensation expense (“EBITDA”) for the 12 months ended on the last day of the most recent calendar quarter, plus pro forma EBITDA from any businesses acquired during the period. Pursuant to a security agreement, dated August 25, 2004, the Revolving Facility is secured by the Company’s existing and hereafter acquired tangible assets, intangible assets and real property. The maturity of the Revolving Facility and any incremental loans can be accelerated if any event of default, as defined under the credit agreement, occurs. The Company’s maximum Cash Flow Leverage Ratio is 3.50 to 1. As of October 27, 2016, the

Company amended its credit agreement to increase the letter of credit sublimit under the Revolving Facility from \$5 million to \$10 million.

The Company may pay dividends so long as it remains in compliance with the provisions of the Company's credit agreement, and may purchase, redeem or otherwise acquire shares of its common stock so long as its pro forma Cash Flow Leverage Ratio is less than 3.00 to 1.00 and no default or event of default exists or would exist after giving effect to such stock repurchase.

As of March 31, 2017, the Company had no debt outstanding and no draws on the Revolving Facility other than \$6.5 million of letters of credit, including \$6.0 million related to the St. Clair kiln project, which count as draws against the available commitment under the Revolving Facility.

9. Income Taxes

The Company has estimated that its effective income tax rate for 2017 will be approximately 22.2%. The primary reasons for the effective rate being below the federal statutory rate is due to statutory depletion, which is allowed for income tax purposes and is a permanent difference between net income for financial reporting purposes and taxable income, and income tax credits associated with the ongoing construction of the St. Clair kiln project.

10. Dividends and Share Repurchases

On March 17, 2017, the Company paid \$0.8 million in cash dividends, based on a dividend of \$0.135 (13.5 cents) per share on its common stock, to shareholders of record at the close of business on February 24, 2017.

In December 2015, the Company commenced a publicly announced share repurchase program to purchase up to \$10 million of its common stock. Pursuant to that program, the Company repurchased 50,068 shares in the first quarter 2016 at a weighted-average price of \$53.52 per share. In November 2016, the Company announced a 12-month extension of the repurchase program to repurchase up to the approximately \$7.2 million of its common stock remaining under the program. No shares have been repurchased under the program since the first quarter 2016. Since the commencement of the share repurchase program through March 31, 2017, the Company has repurchased 53,154 shares at a weighted-average price of \$53.59 per share.

11. Subsequent Event

On April 25, 2017, the Company's Board of Directors declared a regular quarterly cash dividend of \$0.135 (13.5 cents) per share on the Company's common stock. This dividend is payable on June 16, 2017 to shareholders of record at the close of business on May 26, 2017.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements. Any statements contained in this Report that are not statements of historical fact are forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements in this Report, including without limitation statements relating to the Company's plans, strategies, objectives, expectations, intentions, and adequacy of resources, are identified by such words as "will," "could," "should," "would," "believe," "possible," "potential," "expect," "intend," "plan," "schedule," "estimate," "anticipate," and "project." The Company undertakes no obligation to publicly update or revise any forward-looking statements. The Company cautions that forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from expectations, including without limitation the following: (i) the Company's plans, strategies, objectives, expectations, and intentions are subject to change at any time at the Company's discretion; (ii) the Company's plans and results of operations will be affected by its ability to maintain and increase its revenues and manage its growth; (iii) the Company's ability to meet short-term and long-term liquidity demands, including meeting the Company's operating and capital needs, including for the modernization and expansion and development project at St. Clair and possible acquisitions, repurchasing the Company's common stock and paying dividends, and conditions in the credit and equity markets, including the ability of the Company's customers to meet their obligations; (iv) interruptions to operations and increased expenses at the Company's facilities resulting from changes in mining methods or conditions, variability of chemical or physical properties of the Company's limestone and its impact on process equipment and product quality, inclement weather conditions, natural disasters, accidents, IT systems failures or disruptions, including due to cybersecurity incidents, or regulatory requirements; (v) volatile coal, petroleum coke, diesel, natural gas, electricity, transportation and freight costs and the consistent availability of trucks and rail cars to deliver the Company's products to its customers and solid fuels to its plants on a timely basis; (vi) unanticipated delays or cost overruns in completing modernization and expansion and development projects, including the Company's St. Clair kiln project that is estimated to cost approximately \$50 million through 2018; (vii) the Company's ability to expand its Lime and Limestone Operations through projects and acquisitions of businesses with related or similar operations, including obtaining financing for such projects and acquisitions, and to sell any resulting increased production at acceptable prices; (viii) inadequate demand and/or prices for the Company's lime and limestone products due to conditions in the U.S. economy, recessionary pressures in particular industries, including construction, steel, industrial and oil and gas services, reduced demand from utility plants, increased competition from competitors, effects of governmental fiscal and budgetary constraints, including the level of highway construction funding, and legislative impasses and economic and regulatory uncertainties under the new Administration and Congress, and inability to continue to maintain or increase prices for the Company's products; (ix) uncertainties of prices and regulations with respect to the Company's Natural Gas Interests, including the absence of drilling activities on the Company's O & G Properties, a change in the operator of the wells drilled on the O & G Properties, inability to explore for new reserves, unitization of existing wells, declines in production rates and plugging and abandoning of existing wells; (x) ongoing and possible new regulations, investigations, enforcement actions and costs, legal expenses, penalties, fines, assessments, litigation, judgments and settlements, taxes and disruptions and limitations of operations, including those related to climate change and health and safety and those that could impact the Company's ability to continue or renew its operating permits or successfully secure new permits in connection with its modernization and expansion and development projects; and (xi) other risks and uncertainties set forth in this Report or indicated from time to time in the Company's filings with the Securities and Exchange Commission (the "SEC"), including the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2016.

Overview.

The Company has two operating segments: Lime and Limestone Operations and Natural Gas Interests. Revenues and gross profit are the primary items utilized to evaluate the operating results of the Company's segments and to allocate resources.

Through its Lime and Limestone Operations, the Company is a manufacturer of lime and limestone products, supplying primarily the construction (including highway, road and building contractors), environmental (including municipal sanitation and water treatment facilities and flue gas treatment processes), industrial (including paper and glass manufacturers), metals (including steel producers), roof shingle, oil and gas services and agriculture (including poultry

and cattle feed producers) industries. The Company is headquartered in Dallas, Texas and operates lime and limestone plants and distribution facilities in Arkansas, Colorado, Louisiana, Oklahoma and Texas through its wholly owned subsidiaries, Arkansas Lime Company, Colorado Lime Company, Texas Lime Company, U.S. Lime Company, U.S. Lime Company – Shreveport, U.S. Lime Company – St. Clair and U.S. Lime Company – Transportation. The Lime and Limestone Operations represent the Company’s principal business.

The Company’s Natural Gas Interests are held in its wholly owned subsidiary, U.S. Lime Company – O & G, LLC, and consist of royalty and non-operating working interests under the O & G Lease with EOG Resources, Inc. (“EOG”) and the Drillsite Agreement with XTO Energy, Inc. related to the Company’s Johnson County, Texas property, located in the Barnett Shale Formation, on which Texas Lime Company conducts its lime and limestone operations. The Company has been informed that affiliated companies of Enervest, Ltd. have purchased EOG’s interests in the O & G Lease, and that another affiliate of Enervest, Ltd. will be the successor operator of the wells drilled under the O & G Lease. No new wells have been drilled or completed on the O&G Properties since 2011. The Company cannot predict if any additional wells will be drilled on the O & G Properties, or their results.

Revenues from the Company’s Lime and Limestone Operations increased 7.1% in the first quarter 2017, as compared to the first quarter 2016, primarily because of increased sales volumes of approximately 7.4%, for the Company’s lime and limestone products. The Company’s increased sales volume in the first quarter 2017, as compared to last year’s first quarter, resulted primarily from increased demand for the Company’s lime and limestone products, principally from its oil and gas services customers, with continued strong demand from its constructions customers. Average product prices realized for the Company’s lime and limestone products decreased approximately 0.3% in the first quarter 2017, compared to the first quarter 2016.

The Company’s gross profit from its Lime and Limestone Operations increased by 1.1% in the first quarter 2017, compared to the first quarter 2016. The increased gross profit from the Company’s Lime and Limestone Operations in the 2017 period resulted primarily from the increased revenues discussed above, partially offset by increased discretionary outside contractor stripping costs.

Revenues from the Company’s Natural Gas Interests increased 47.2% in the first quarter 2017, compared to the first quarter 2016, resulting from higher natural gas and natural gas liquids prices in the first quarter 2017 (approximately 61.7%), partially offset by decreased production volumes resulting from the normal declines in production rates on the Company’s 39 existing natural gas wells (approximately 14.5%). The Company’s gross profit from its Natural Gas Interests was \$0.2 million in the first quarter 2017, compared to a \$0.1 million loss in the first quarter 2016, primarily due to the increased revenues.

In December 2015, the Company commenced a publicly announced share repurchase program to purchase up to \$10 million of its common stock. In November 2016, the Company announced a 12-month extension of the repurchase program to repurchase up to the approximately \$7.2 million of its common stock remaining under the program. No shares have been repurchased under the program since the first quarter 2016, when the Company repurchased 50,068 shares at a weighted-average price of \$53.52 per share. Since the commencement of the share repurchase program through the date of this Report, the Company has repurchased 53,154 shares at a weighted-average price of \$53.59 per share.

The Company paid its regular quarterly cash dividend of \$0.135 (13.5 cents) per share on its common stock in the first quarter 2017. On April 25, 2017, the Company’s Board of Directors declared a regular quarterly cash dividend of \$0.135 (13.5 cents) per share on the Company’s common stock. This dividend is payable on June 16, 2017 to shareholders of record at the close of business on May 26, 2017.

Liquidity and Capital Resources.

Net cash provided by operating activities was \$6.1 million in the first quarter 2017, compared to \$7.9 million in the first quarter 2016, a decrease of \$1.8 million, or 23.4%. The decrease primarily resulted from changes in working capital items, principally the \$3.2 million increase in trade receivables, partially offset by the \$0.6 million increase in net income in the first quarter 2017, compared to the first quarter 2016. Net cash provided by operating activities is

composed of net income, depreciation, depletion and amortization (“DD&A”), deferred income taxes and other non-cash items included in net income, and changes in working capital. In the first quarter 2017, cash provided by operating activities was principally composed of \$4.6 million net income and \$4.3 million DD&A, compared to \$4.1 million net income and \$4.0 million DD&A in the first quarter 2016. In addition to the increase in trade receivables, net discussed above, the most significant changes in working capital items in the first quarter 2017 were a decrease in inventories, net of \$0.6 million and a decrease in deferred income taxes of \$0.6 million. The most significant changes in working capital items in the first quarter 2016 were an increase in trade receivables, net of \$0.9 million, a decrease in inventories, net of \$1.0 million and a decrease in accounts payable and accrued expenses of \$0.8 million. The increase in trade receivables, net in the 2017 first quarter resulted primarily from increased revenues in the first quarter 2017, compared to the fourth quarter 2016, while the increase in trade receivables, net in the 2016 first quarter resulted primarily from increased revenues in the first quarter 2016, compared to the fourth quarter 2015.

The Company had \$4.2 million in capital expenditures in the first quarter 2017, including approximately \$1.3 million on the St. Clair kiln project, which includes a new, more fuel-efficient vertical kiln and related plant improvements, compared to \$3.9 million in the comparable period last year. Through March 31, 2017, the Company had incurred approximately \$4.4 million on the St. Clair kiln project. The Company estimates that the St. Clair kiln project will cost approximately \$50 million and be completed by the end of 2018.

Net cash used in financing activities was \$0.8 million and \$3.3 million in the 2017 and 2016 first quarter, respectively, consisting primarily of purchase of treasury shares of \$0.1 million and \$2.7 million in the first quarter 2017 and 2016, respectively. Additionally, the Company paid \$0.8 million and \$0.7 million in dividends during the first quarter 2017 and 2016, respectively.

Cash and cash equivalents increased \$1.1 million to \$75.8 million at March 31, 2017, from \$74.7 million at December 31, 2016.

The Company’s credit agreement with Wells Fargo Bank, N.A. (the “Lender”) provides for a \$75 million revolving credit facility (the “Revolving Facility”) and an incremental four-year accordion feature to borrow up to an additional \$50 million on the same terms, subject to approval by the Lender or another lender selected by the Company. The Revolving Facility and any incremental loan mature on May 7, 2020. Interest rates are, at the Company’s option, LIBOR plus a margin of 1.000% to 2.000%, or the Lender’s Prime Rate plus a margin of 0.000% to plus 1.000%; and a commitment fee range of 0.200% to 0.350% on the undrawn portion of the Revolving Facility. The Revolving Facility interest rate margins and commitment fee are determined quarterly in accordance with a pricing grid based upon the Company’s Cash Flow Leverage Ratio, defined as the ratio of the Company’s total funded senior indebtedness to earnings before interest, taxes, depreciation, depletion, amortization and stock-based compensation expense (“EBITDA”) for the 12 months ended on the last day of the most recent calendar quarter, plus pro forma EBITDA from any businesses acquired during the period. Pursuant to a security agreement, dated August 25, 2004, the Revolving Facility is secured by the Company’s existing and hereafter acquired tangible assets, intangible assets and real property. The maturity of the Revolving Facility and any incremental loans can be accelerated if any event of default, as defined under the credit agreement, occurs. The Company’s maximum Cash Flow Leverage Ratio is 3.50 to 1. As of October 27, 2016, the Company amended its credit agreement to increase the letter of credit sublimit under the Revolving Facility from \$5 million to \$10 million.

The Company may pay dividends so long as it remains in compliance with the provisions of the Company’s credit agreement, and may purchase, redeem or otherwise acquire shares of its common stock so long as its pro forma Cash Flow Leverage Ratio is less than 3.00 to 1.00 and no default or event of default exists or would exist after giving effect to such stock repurchase.

The Company is not contractually committed to any planned capital expenditures until actual orders are placed for equipment. As of March 31, 2017, the Company had no material open orders or commitments that are not included in current liabilities on the March 31, 2017 Condensed Consolidated Balance Sheet other than approximately \$7.0 million related to the St. Clair kiln project.

In November 2016, to hedge against potential losses due to changes in the Euro to U.S. Dollar exchange rates, the Company entered into foreign exchange (“FX”) hedges with Wells Fargo Bank, N.A. as the counterparty to the FX hedges to fix the exchange rate for approximately 5.5 million Euros in connection with a contractual obligation related to the St. Clair kiln project. The Company will be exposed to credit losses in the event of non-performance by the counterparty to the FX hedges. The FX hedges have been effective as defined under applicable accounting rules. Therefore, changes in fair value of the FX hedges are reflected in comprehensive income. Due to the strengthening of the U.S. Dollar, compared to the Euro, in the period since the Company entered into the FX hedges, the fair value of the FX hedges resulted in a liability of \$303 thousand and \$352 thousand at March 31, 2017 and December 31, 2016, respectively, which is included in accrued expenses (\$265 thousand and \$309 thousand, at March 31, 2017 and December 31, 2016, respectively) and other liabilities (\$38 thousand and \$43 thousand, at March 31, 2017 and December 31, 2016, respectively).

As of March 31, 2017, the Company had no debt outstanding and no draws on the Revolving Facility other than \$6.5 million of letters of credit, including \$6.0 million related to the St. Clair kiln project, which count as draws against the available commitment under the Revolving Facility. The Company believes that, absent a significant acquisition, cash on hand and cash flows from operations will be sufficient to meet the Company’s operating needs, ongoing capital needs, including current and possible modernization and expansion and development projects, including the kiln project at St. Clair, and liquidity needs and allow it to continue to repurchase up to approximately \$7.2 million of its common stock under its extended share repurchase program as well as pay its increased cash dividends for the near future.

Results of Operations.

Revenues in the first quarter 2017 were \$36.2 million, compared to \$33.6 million in the first quarter 2016, an increase of \$2.6 million, or 7.6%. Revenues from the Company’s Lime and Limestone Operations in the first quarter 2017 increased \$2.4 million, or 7.1%, to \$35.5 million from \$33.2 million in the first quarter 2016, while revenues from its Natural Gas Interests increased \$0.2 million, or 47.2%, to \$0.6 million from \$0.4 million in the first quarter 2017.

As discussed above, the increases in Lime and Limestone Operations revenues in the first quarter 2017 as compared to last year’s first quarter resulted primarily from increased sales volumes of the Company’s lime and limestone products, partially offset by the slight decrease in average prices realized for the Company’s lime and limestone products.

Production volumes from the Company’s Natural Gas Interests in the first quarter 2017 totaled 146 thousand MCF, sold at an average price of \$4.35 per MCF, compared to 160 thousand MCF, sold at an average price of \$2.69 per MCF, in the 2016 quarter. The Company’s average prices per MCF for the first quarter 2017 were higher than average prices for the prior year’s comparable period due to increases in natural gas and natural gas liquids prices.

The Company’s gross profit was \$8.2 million in the first quarter 2017, compared to \$7.8 million in the first quarter 2016, an increase of \$0.4 million, or 5.0%. Included in gross profit in the first quarter 2017 was \$8.0 million from the Company’s Lime and Limestone Operations, compared to \$7.9 million, in the first quarter 2016. The Company’s gross profit margin as a percent of revenues from its Lime and Limestone Operations decreased to 22.6% in the first quarter 2017, from 23.9% in the first quarter 2016. The decreased gross profit margin in the first quarter 2017 resulted primarily from increased discretionary outside contractor stripping costs and the lower average prices received for the Company’s lime and limestone products, partially offset by the increase in revenues due to increased sales volumes. The increased gross profit for the Company’s Lime and Limestone Operations in the 2017 period resulted primarily from the increase in revenues discussed above.

Gross profit from the Company’s Natural Gas Interests increased to a profit of \$0.2 million in the first quarter 2017, from a loss of \$0.1 million in the comparable 2016 quarter, primarily due to the increase in revenues discussed above.

Selling, general and administrative expenses (“SG&A”) was \$2.4 million in each of the first quarters of 2017 and 2016. As a percentage of revenues, SG&A decreased to 6.7% in the first quarter 2017, compared to 7.2% in the first

quarter 2016. The 2017 decrease in SG&A as a percentage of revenues was due principally to the increase in revenues in the 2017 quarter, compared to the 2016 quarter.

Interest expense was \$0.1 million in each of the 2017 and 2016 first quarters. Other income, net was \$0.2 million in the first quarter 2017, compared to \$43 thousand in the first quarter 2016.

Income tax expense decreased to \$1.3 million in the first quarter 2017 from \$1.4 million in the first quarter 2016, a decrease of \$48 thousand, or 3.5%. The decrease in income taxes in the first quarter 2017 was primarily due to income tax credits associated with the ongoing St. Clair kiln project, partially offset by the increase in the Company's income before income taxes in the first quarter 2017, compared to the first quarter 2016.

The Company's net income was \$4.6 million (\$0.83 per share diluted) in the first quarter 2017, compared to net income of \$4.1 million (\$0.73 per share diluted) in the first quarter 2016, an increase of \$0.6 million, or 13.6%.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk.

The Company would be exposed to changes in interest rates, primarily as a result of floating interest rates on the Revolving Facility. There was no outstanding balance on the Revolving Facility subject to interest rate risk at March 31, 2017. Any future borrowings under the Revolving Facility would be subject to interest rate risk. See Note 8 of Notes to Condensed Consolidated Financial Statements.

Foreign Exchange Risk.

The Company could be exposed to changes in the Euro to U.S. Dollar exchange rate for its approximately 5.5 million Euros obligation related to a contract for the St. Clair kiln project. The Company entered into FX hedges to fix its U.S. Dollar liability at approximately \$6.3 million. See Note 6 of Notes to Condensed Consolidated Financial Statements.

ITEM 4: CONTROLS AND PROCEDURES

The Company's management, with the participation of the Company's Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), evaluated the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this Report. Based upon that evaluation, the CEO and CFO concluded that the Company's disclosure controls and procedures as of the end of the period covered by this Report were effective.

No change in the Company's internal control over financial reporting occurred during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 2: UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

In December 2015, the Company commenced a publicly announced share repurchase program to repurchase up to \$10 million of its common stock. In November 2016, the Company announced a 12-month extension of the

repurchase program to repurchase up to the approximately \$7.2 million of its common stock remaining under the program.

The following table sets forth, for the periods indicated, the Company's share repurchase activity under the program:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Remaining Amount Available Under the Program
January 1 – 31, 2017	—	\$ —	—	\$ 7,151,226
February 1 – 28, 2017	—	—	—	7,151,226
March 1 – 31, 2017	—	—	—	7,151,226
Total	—	\$ —	—	\$ 7,151,226

In addition, the Company's Amended and Restated 2001 Long-Term Incentive Plan allows employees and directors to pay the exercise price for stock options and the tax withholding liability upon the lapse of restrictions on restricted stock by payment in cash and/or delivery of shares of the Company's common stock. In the first quarter 2017, pursuant to these provisions, the Company repurchased 1,006 shares at a price of \$76.47 per share, the fair market value of one share of the Company's common stock on the date that they were tendered to the Company for payment of tax withholding liability upon the lapse of restrictions on restricted stock.

ITEM 4: MINE SAFETY DISCLOSURES

Under Section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 104 of SEC Regulation S-K, each operator of a coal or other mine is required to include disclosures regarding certain mine safety results in its periodic reports filed with the SEC. The operation of the Company's quarries, underground mine and plants is subject to regulation by the federal Mine Safety and Health Administration ("MSHA") under the Federal Mine Safety and Health Act of 1977. The required information regarding certain mining safety and health matters, broken down by mining complex, for the quarter ended March 31, 2017 is presented in Exhibit 95.1 to this Report.

The Company believes it is responsible to employees to provide a safe and healthy workplace environment. The Company seeks to accomplish this by: training employees in safe work practices; openly communicating with employees; following safety standards and establishing and improving safe work practices; involving employees in safety processes; and recording, reporting and investigating accidents, incidents and losses to avoid reoccurrence.

Following passage of the Mine Improvement and New Emergency Response Act of 2006, MSHA significantly increased the enforcement of mining safety and health standards on all aspects of mining operations. There has also been an increase in the dollar penalties assessed for citations and orders issued in recent years.

ITEM 6: EXHIBITS

- 31.1 Rule 13a-14(a)/15d-14(a) Certification by the Chief Executive Officer.
- 31.2 Rule 13a-14(a)/15d-14(a) Certification by the Chief Financial Officer.

RULE 13a-14(a)/15d-14(a) CERTIFICATION BY THE CHIEF EXECUTIVE OFFICER

I, Timothy W. Byrne, certify that:

1. I have reviewed this quarterly report on Form 10-Q of United States Lime & Minerals, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize, and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

- (2) The information contained in the Form 10-Q fairly presents, in all material respects, the financial condition and results of operations of the Company.

Dated: April 28, 2017

/s/ M. Michael Owens

M. Michael Owens

Vice President and Chief Financial Officer

MINE SAFETY DISCLOSURES

The following disclosures are provided pursuant to Section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 104 of SEC Regulation S-K, which require certain disclosures by companies required to file periodic reports under the Securities Exchange Act of 1934, as amended, that operate mines regulated under the Federal Mine Safety and Health Act of 1977 (the “Mine Act”).

The Mine Act has been construed as authorizing MSHA to issue citations and orders pursuant to the legal doctrine of strict liability, or liability without fault. If, in the opinion of an MSHA inspector, a condition that violates the Mine Act or regulations promulgated pursuant to it exists, then a citation or order will be issued regardless of whether the operator had any knowledge of, or fault in, the existence of that condition. Many of the Mine Act standards include one or more subjective elements, so that issuance of a citation or order often depends on the opinions or experience of the MSHA inspector involved and the frequency and severity of citations and orders will vary from inspector to inspector.

Whenever MSHA believes that a violation of the Mine Act, any health or safety standard, or any regulation has occurred, it may issue a citation or order which describes the violation and fixes a time within which the operator must abate the violation. In some situations, such as when MSHA believes that conditions pose a hazard to miners, MSHA may issue an order requiring cessation of operations, or removal of miners from the area of the mine, affected by the condition until the hazards are corrected. Whenever MSHA issues a citation or order, it has authority to propose a civil penalty or fine, as a result of the violation, that the operator is ordered to pay.

The table that follows reflects citations, orders, violations and proposed assessments issued to the Company by MSHA during the quarter ended March 31, 2017 and all pending legal actions as of March 31, 2017. Due to timing and other factors, the data may not agree with the mine data retrieval system maintained by MSHA. The proposed assessments for the quarter ended March 31, 2017 were taken from the MSHA system as of April 27, 2017.

Additional information follows about MSHA references used in the table:

- *Section 104(a) Citations:* The total number of citations received from MSHA under section 104(a) of the Mine Act for alleged violations of health or safety standards that could significantly and substantially contribute to a serious injury if left unabated.
- *Section 104(b) Orders:* The total number of orders issued by MSHA under section 104(b) of the Mine Act, which represents a failure to abate a citation under section 104(a) within the period of time prescribed by MSHA. This results in an order of immediate withdrawal from the area of the mine affected by the condition until MSHA determines that the violation has been abated.
- *Section 104(d) Citations and Orders:* The total number of citations and orders issued by MSHA under section 104(d) of the Mine Act for unwarrantable failure to comply with mandatory health or safety standards.
- *Section 110(b)(2) Violations:* The total number of flagrant violations issued by MSHA under section 110(b)(2) of the Mine Act.
- *Section 107(a) Orders:* The total number of orders issued by MSHA under section 107(a) of the Mine Act for situations in which MSHA determined an imminent danger existed.

Citations and orders can be contested before the Federal Mine Safety and Health Review Commission (the “Commission”), and as part of that process, are often reduced in severity and amount, and are sometimes dismissed. The Commission is an independent adjudicative agency that provides administrative trial and appellate review of legal disputes arising under the Mine Act. These cases may involve, among other questions, challenges by operators to citations, orders and penalties they have received from MSHA, or complaints of discrimination by miners under section 105 of the Mine Act.

Mine(1)	Section 104 S & S Citations	Section 104(b) Orders	Section 104(d) Citations and Orders	Section 110(b)(2) Violations	Section 107(a) Orders	Proposed MSHA Assessments(2) (\$ in thousands)	Fatalities	Pending Legal Actions(3)
Texas Lime Company	1	—	—	—	—	0.6	—	—
Arkansas Lime Company Plant	1	—	—	—	—	0.5	—	—
Limedale Quarry	—	—	—	—	—	—	—	—
Colorado Lime Company Monarch Quarry	—	—	—	—	—	—	—	—
Salida Plant	—	—	—	—	—	—	—	—
Delta Plant	—	—	—	—	—	—	—	—
U.S. Lime Company— St. Clair	1	—	—	—	—	1.6	—	—

- (1) The definition of a mine under section 3 of the Mine Act includes the mine, as well as other items used in, or to be used in, or resulting from, the work of extracting and processing limestone, such as roads, land, structures, facilities, equipment, machines, tools, kilns, and other property. These other items associated with a single mine have been aggregated in the totals for that mine.
- (2) The proposed MSHA assessments issued during the reporting period do not necessarily relate to the citations or orders issued by MSHA during the reporting period or to the pending contests reported above.
- (3) Includes any pending legal actions before the Commission involving such mine as of March 31, 2017. All pending legal actions were initiated by the Company. The pending legal actions may relate to the citations or orders issued by MSHA during the reporting period or to citations or orders issued in prior periods. Due to timing and other factors, the data may not agree with the mine data retrieval system maintained by MSHA. There was one legal action resolved and none instituted during the reporting period.

Pattern or Potential Pattern of Violations. During the quarter ended March 31, 2017, none of the mines operated by the Company received written notice from MSHA of either (a) a pattern of violations of mandatory health or safety standards that are of such nature as could have significantly and substantially contributed to mine health or safety hazards under section 104(e) of the Mine Act or (b) the potential to have such a pattern.
